> [ {'Dec 2015'..'Aug 2016'} = 'Civil Servant First-Level IT Support' ]
~ 'IT Department - 9 Persons': `Linux_Server|Windows|Windows_Server`
+ IT support for all Diakonie refugee homes in Austria
+ Occasionally I performed Second-Level tasks too.
```

Projects

private

homelab

more ./project_details.txt

Selfhosting some of my websites, mailserver, password manager and many other services, because why do it the easy way when you can battle DNS settings.

Tech: `ansible|bash|docker|ipv6|Linux|openWRT|opnSense|proxmox|wireshark`

github

yanik-thurner/nvim-copy-mode

more ./project_details.txt

A tmux plugin that replaces the default copy-mode with a neovim terminal. It allows for the usage of all vim movements.

Tech: `tmux|bash|lua`

github

yanik-thurner/anno-chan

more ./project_details.txt

A program developed as a part of my bachelor thesis. It is an annotation tool with the ability to integrate and evaluate PyTorch object detection models. Thus being able to expose the shortcomings and adapting network and dataset iteratively.

Tech: `Python|PyTorch|Qt`

github

yanik-thurner/farm4money

more ./project_details.txt

A 3D farming simulator game that was developed as part of the "Computer Graphics" lecture at TU Vienna.

Tech: `C++|GLSL|OpenGL`
